## Board of Trustees

Audit Committee

June 29, 2021

Minutes

A live stream of the meeting for public viewing also took place on YouTube.

---

**MEMBERS PARTICIPATING IN PERSON:** Committee Chair Boudreau, Vice Chair Alvarado, Secretary Williams, and Trustee Martin

**TRUSTEE GUESTS IN ATTENDANCE:** Trustees Landrau, Queenin, and Salehi

Dr. Roy H. Saigo, Interim President, and Dr. Linda Thompson, President-elect, of Westfield State University were also in attendance.

The meeting was called to order at 1:04 PM by Committee Chair Boudreau.

**MOTION** made by Trustee Boudreau seconded by Trustee Alvarado, to approve the minutes of the February 9, 2021, April 14, 2021, and April 29, 2021 meetings. There being no discussion, **Motion passed unanimously.**

FY21 Audit Plan Presentation. Representatives from the accounting firm O'Connor and Drew, P.C. presented the FY21 audit plan and their procedures and reviewed the responsibilities of their firm and Westfield State University's management. The firm will provide audited financial statements, a single audit report for federal financial aid and CARES Act as deemed material, as well as a management letter if necessary.

- The firm's relationship with the Westfield State University Foundation was shared.
- GASB Statement 87 requires that all leases over 12 months be listed in the financial statements after June 15, 2021 which will make financial statements look different going forward. The transactions balance out each other, but it will increase the debt on the books, which may affect covenants.
- Trustee Martin stated he wants to make sure that University personnel know the institution is audited and how they can register any concerns surrounding fraud. It was noted that the financial statements and the whistleblower policy and process are on the website. Mr. Stephen Taksar, Vice President for Administration and Finance, stated that additional information would be sent to the campus letting them know how to access that portion of the website.

FY21 Internal Audit/Risk Management/Compliance. Mr. Taksar stated that a compliance review should be done more often. There are clear audit reports, but UEAAC Recommendation 14 deals with legal relationships, strategic activities, and compliance. The expectations and process for the critical role assigned to internal audit and risk management need to be determined. Most tasks include compliance functions. No other institution has an internal auditor. Mr. Taksar said there is a critical needs list for the University which needs to be reviewed and prioritized to match the UEAAC recommendations. Trustee

Martin suggested the possibility of identifying a firm that could audit certain departments on a contract basis, but there is no funding for that. There is also the possibility of sharing the position with another institution. A risk management plan was created a few years ago that needs to be implemented. This issue will stay on each meeting's agenda as an informational item until it is addressed.

There being no other business, **MOTION** made by Trustee Alvarado seconded by Trustee Williams, to adjourn. There being no discussion, **Motion passed unanimously.**

Meeting adjourned at 1:40 PM.

Re: Audit Control Number: 01-20-18690  
Assistance Listing Number: 84.425E  
Grant Award Number: P425E203258

Dear President Thompson:

This letter transmits the U.S. Department of Education's (ED) program determination for one finding cited in the audit report of Westfield University (University) for the period of July 1, 2019 through June 30, 2020. The audit report was issued on May 4, 2021, by O'Connor and Drew, P.C. The audit was performed in compliance with the requirements of Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This office, ED's Risk Management Services Division (RMSD), is responsible for the resolution of the finding presented below, as related to ED's Higher Education Emergency Relief Fund (HEERF).

For finding 2020-002, the auditor reported that the University's Student Financial Aid Office is responsible for awarding student emergency grants in accordance with the University's documented distribution plan. Pursuant to the audit sampling, the auditor noted that one student expenditure out of a sample of 39 total student and institutional expenditures received a student emergency grant of \$500 instead of the \$400, as prescribed by the University's documented student distribution plan. The questioned cost reported by the auditor is \$100.

The University responded to the finding that its Financial Aid Office would work with the University's Institutional Research Office to pull lists of eligible students for future HEERF grants. Additionally, lists would include appropriate student information based on the guidelines the University will be using for disbursing HEERF grants. Students will be sampled at random to confirm all data points are correct and the grant being awarded is correct. Furthermore, the University asserted that its corrective action plan has already been implemented for the second round of the HEERF grants that were passed with the Coronavirus Response and Relief Supplemental Appropriations Act.

550 12th St. S.W., WASHINGTON, DC 20202  
[www.ed.gov](http://www.ed.gov)

We sustain the auditor's finding that the University had awarded a student an additional \$100 of emergency grant funding that was not in accordance with the University's documented student distribution plan for the HEERF grant. However, based on the corrective actions taken by the University and our determination that the questioned costs are de minimis we do not seek the recovery of the \$100 in questioned costs. Accordingly, we consider this finding resolved and closed.

If you have any questions regarding this letter, please contact Mr. Richard Esterbrook, CPA at (202) 205-8029 or [richard.esterbrook@ed.gov](mailto:richard.esterbrook@ed.gov).

Sincerely,

Recommendations

1. WSU should amend its procedures to ensure that verification is properly performed before creations or changes are processed and require all personnel to document the measures they take to verify the information vendors provide in requests to create or change information in their files.
2. WSU should implement effective monitoring controls (e.g., a supervisory review process) to ensure that its staff complies with this requirement.

**Auditee's** Response

*The Vendor Review Procedure in Banner [WSU's accounting system] and MMARS has been updated and implemented. This procedure complies with the Commonwealth of Massachusetts, Office of the Comptroller, Vendor/Customer File and W-9's Policy. This procedure also includes steps that document this process coupled with supervisory review.*

*The University's procedures have been updated to require actions to be documented on a newly created form entitled Vendor Electronic Payment Instructions—Addition/Change Documentation Form, which requires a review and approval process when updating or adding vendor banking information.*

WSU Update (October 2021)

In the months following the audit findings, we have had three instances that required an update to vendor banking information. We used the Vendor Electronic Payment Instructions-Addition/Change Documentation form in all instances, which included a supervisor review and documentation of how the information was verified.

In addition, the employee and supervisor who review new vendor W9's, now place their initials and the date of the review on each W9 to indicate that the review process has been completed.

**Subject:** Required Information Security Training

Good morning,

As we have learned over the last several years, hackers are becoming increasingly creative with their deceptive attempts to steal our personal information. As employees of the university, we are the last line of defense against these attacks, so it is important that we remain educated and informed. Policy and physical or electronic barriers alone cannot protect Westfield State University resources. These measures must be combined with a work force that is aware and engaged in Information Security Practices.

Pursuant with the Commonwealths Executive Office of Technology Services and Security (EOTSS) standards, the Collective Bargaining Units have been notified and agreed to ensuring all employees are trained on all relevant rules and regulations for cybersecurity. All employees of the university are **required** to take this security awareness training, minimally, once a year. New employees are **required** to complete an initial security awareness training course, within 30 days of their hire date.

In the coming weeks, the university will be launching an electronic, online security education training and awareness (SETA) program through a partnership with KnowBe4, a world-wide leader in cyber security training and education. You will receive an invitation in your university email to begin your training at which time you will have 60 days to complete a 15-minute video and take a brief test, at the end of the training, to assess your knowledge of the information provided in the video. More information will be provided prior to the launch of the SETA program (see attached).

Similar to other **required** training, employees are encouraged to take the training during work hours.

To protect the nest, our employee and student personal information, as well as all, of our digital assets, it is mandatory that everyone goes through the training. Every effort should be made to allow employee's access to a computer to take the training as the only way this training can be completed is electronically.

Thank you for your attention to this very important matter.

## Security Education Training and Awareness (SETA) Program

### PURPOSE

The purpose of this guideline is to establish the Westfield State University Security Education, Training and Awareness (SETA) Program

### SCOPE

This guideline outlines the requirements identified in the Information Security Policy (0580) and recommends the design, development, and implementation guidelines for maintaining an effective state of security awareness at Westfield State University. Additionally, this program will outline security education requirements for all personnel and those providing support to Westfield State activities and operations (herein after referred to as constituents). Each component of the Westfield State University SETA program is focused on a different target audience. Security Education (Professional) is generally limited to those with specific security responsibilities, the security professionals. Security Awareness is focused on the entire service population and is universally applicable to all echelons of the organization. Each type of security training, including awareness, has an accompanying set of knowledge or skills in connection with the target audience. That knowledge or skill set can range from simple identification of individual security responsibilities to technical competency in a particular security discipline – a Subject Matter Expert (SME). Security awareness is an individual responsibility for all Westfield State University constituents. Policy and physical or electronic barriers alone cannot protect Westfield State University resources. These measures must be effectively combined with a work force that fully understands security practices and accepts responsibility for compliance with those standards. The most effective measure of protection against exploitation is a workforce that is aware and engaged. Security awareness focuses individual attention on security needs or concerns and promotes positive security consciousness and facilitates proactive changes in security related behavior or reinforces good security practices.

### ROLES

Chief Information Security Officer (CISO).

1. Overall management and responsibility for implementation, execution, and management of SETA in collaboration with Human Resources.
2. Establish standards and document compliance in accordance with local, state, and federal regulations.

Office of Information and Instructional Technology

1. Recommend and support the necessary platform to execute SETA.
2. Budget for SETA materials and the continuing education of all constituents.
3. Monitor and ensure compliance for mandated SETA training as required by local, state, and federal regulations, as applicable.

Human Resources

1. Notify Information technology of new hires to ensure required initial security trainings are conducted.
2. Notify and, if necessary, bargain with collective bargaining units to comply with local, state, and federal regulations.
3. Integrate security awareness training into all professional development programs, as appropriate.
4. Determine appropriate performance intervention through analysis as requested and resourced by the appropriate supervisor.

Constituents

1. Comply with the requirements set forth in this guideline and any supporting policies and/or regulations as applicable.
2. Our mission is to establish an awareness and mindset of effective practices on the part of all constituents and to ensure compliance with government policies and procedures designed to protect the university's assets by;
  - a. Understanding your individual security responsibilities.
  - b. Make security a daily habit.
  - c. Ask if you have any questions or need help.

# Information Technology Services

Guideline concerning: Security Education Training and Awareness

Page 2 of 2

## PROCEDURES

1. Pursuant with the Commonwealths Executive Office of Technology Services and Security (EOTSS) standards constituents are required to participate in the SETA program, in the required time frame, as provided by the university to produce relevant security skills and competencies to support job performance and meet compliance requirements.
2. There are three types of training utilized within the SETA program framework:
  - a. Mandatory Training: Security training required by statute, directive, or other regulatory guidance.
  - b. Specialized Training: Security training specifically designed to facilitate sound security practices in individual job performance.
  - c. Professional Training: Technical or Certification training for the professional security staff.
3. SETA shall consist of;
  - a. Within 30 days of hire/contract, all constituents shall be required to complete security education training and awareness.
  - b. At a minimum, annual security education training and awareness must be completed by all constituents. Other specialized areas may require more frequent training based upon regulatory requirements or other factors necessitating more frequent training.
  - c. At a minimum, monthly phishing tests will be sent to assess the university's security posture.

## REVIEW

This guideline shall be reviewed annually by the Chief Information Security Officer and/or the Security Policy Team.

Dear Dr. Saigo:

I am pleased to provide this performance audit of Westfield State University. This report details the audit objectives, scope, methodology, findings, and recommendations for the audit period, October 1, 2018 through March 31, 2020. My audit staff discussed the contents of this report with management of the university, whose comments are reflected in this report.

I would also like to express my appreciation to Westfield State University for the cooperation and assistance provided to my staff during the audit.

Sincerely,

## EXECUTIVE SUMMARY

In accordance with Section 12 of Chapter 11 of the Massachusetts General Laws, the Office of the State Auditor has conducted a performance audit of Westfield State University (WSU) for the period October 1, 2018 through March 31, 2020.

In this performance audit, we reviewed WSU's information system security awareness training practices to determine whether its system users had completed required information system security awareness training. We also determined whether WSU had complied with its procedures, as well as policies issued by the Office of the Comptroller of the Commonwealth, when processing state vendors' requests to create or change payment information and other information in the state's accounting system, the Massachusetts Management Accounting and Reporting System.

Below is a summary of our findings and recommendations, with links to each page listed.

## OVERVIEW OF AUDITED ENTITY

Westfield State University (WSU) was established by Section 5 of Chapter 15A of the Massachusetts General Laws and operates under the direction of a board of trustees, the members of which are appointed by the Governor. The board is responsible for reviewing the university's mission, appointing a president, and approving the annual budget. Its officers include a chair, a vice chair, an alumni trustee, a student trustee, a secretary, and other members, as well as the president of the university, who is an ex officio member.

WSU is a member of the Massachusetts public higher-education system, which consists of 15 community colleges, nine state universities, and five University of Massachusetts campuses. WSU is a public institution that offers undergraduate and graduate programs in the liberal arts, sciences, and professional studies. It is a department of the Commonwealth and receives funding through state appropriations, tuition and fees, investment income, capital grants, and other sources. In 2019, WSU received appropriations of \$39 million from the Commonwealth. According to its website, for fiscal year 2020, WSU had 5,810 students enrolled in credit and non-credit courses.

### Vendor/Customer File Information and Changes

When a state agency enters into contracts with a vendor, the agency must first obtain information, such as the vendor's legal name, address, and electronic fund transfer (EFT) information, from the vendor. EFT information is required for all statewide vendors that receive multiple payments, so that the Commonwealth can transmit payments directly into their bank accounts. When registering a new vendor, a state agency must also obtain from the vendor a completed Internal Revenue Service (IRS) W-9 form ("Request for Taxpayer Identification Number and Certification"), which allows the vendor to provide the state with a unique taxpayer identification number that the vendor needs in order to be paid. Once the agency obtains this information, it is stored in a vendor/customer file in the Massachusetts Management Accounting and Reporting System (MMARS), the official accounting record of the Commonwealth. The agency is responsible for reviewing and updating the information as necessary to ensure that it is accurate. Pursuant to policies issued by the Office of the Comptroller of the Commonwealth (CTR), when a vendor wants to change any of its information in MMARS, it must contact the agency it is working with, inform the agency of the necessary change, and provide documentation to support the change. Once a state agency receives a request to change information in a MMARS

vendor/customer file, it must collect supporting documentation for the change; verify the change with an authorized signatory by phone; process the change; and notify CTR, providing the aforesaid documentation. WSU procedures incorporate these requirements except the documentation of the follow-up with the vendor.

## AUDIT OBJECTIVES, SCOPE, AND METHODOLOGY

In accordance with Section 12 of Chapter 11 of the Massachusetts General Laws, the Office of the State Auditor (OSA) has conducted a performance audit of Westfield State University (WSU) for the period October 1, 2018 through March 31, 2020.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Below is a list of our audit objectives, indicating each question we intended our audit to answer; the conclusion we reached regarding each objective; and where each objective is discussed in the audit findings.

Objective	Conclusion
1. Does WSU comply with its procedures and the “Vendor/Customer File and W-9s” policy issued by the Office of the Comptroller of the Commonwealth (CTR) for making changes to information in state vendor/customer files in the Massachusetts Management Accounting and Reporting System (MMARS)?	No; see <a href="#">Finding 1</a>
2. Does WSU adhere to Sections 6.2.3 and 6.2.4 of the Executive Office of Technology Services and Security’s “Information Security Risk Management Standard” for information system security awareness training?	No; see <a href="#">Finding 2</a>

To achieve our objectives, we gained an understanding of WSU’s internal control environment related to the objectives by reviewing policies and procedures, as well as conducting inquiries with WSU officials. In addition, we performed the following procedures to address our audit objectives.

Initially, we requested from WSU a list<sup>1</sup> of all information about the 15 requests made by WSU vendors for creations of, or changes to, vendor/customer files during the audit period. WSU officials told us during discussions that in 2 of these 15 instances, no changes had been made and the requests had been discarded. We confirmed that the 2 discarded files did not appear in the list of vendors in MMARS.

---

1. The information was not generated by a system; rather, it was produced from university documentation (e.g., Internal Revenue Service W-9 forms submitted by vendors to the university to provide identifying information to help the university prepare information return filings with the Internal Revenue Service).

---

For the other 13 requests, we confirmed WSU's compliance with its procedures and CTR's "Vendor/Customer File and W-9s" policy. To do this, we reviewed each file to see whether it included the following: a completed Internal Revenue Service (IRS) W-9 form ("Request for Taxpayer Identification Number and Certification"), electronic fund transfer (EFT) forms, information from the IRS website about the vendor (e.g., tax identification number, address, and legal name), a business entity summary<sup>2</sup> from the Secretary of the Commonwealth's website to verify the vendor's information, and a letter to CTR detailing the file creation or change. Using the evidence in each vendor/customer file, we determined whether WSU collected the W-9 and/or EFT forms. In addition, we reviewed each vendor/customer file for evidence of WSU verifying the information on the W-9 or EFT against independent sources (IRS or Secretary of the Commonwealth website) and notifying CTR of the creation or change.

We conducted inquiries with the head of the Human Resources Department, the vice president of administration and finance, and the chief information officer to determine whether information system security awareness training was provided to employees with access to WSU information systems.

### Data Reliability

In 2018, OSA conducted an assessment of MMARS (Project #2017-8020-140) the focus of which was on testing selected system controls, including access controls, application controls, configuration management, contingency planning, and segregation of duties, for the period April 1, 2017 through March 31, 2018. During our current audit, we reviewed policies and procedures for security awareness training and personnel, and we conducted testing to verify that personnel with access to the systems were screened before they were given access.

In addition, WSU compiled for us a list of vendor creations and changes made in MMARS during the audit period, showing the vendor name, date of occurrence, and description for each change. We traced all of the creations and changes from the Commonwealth Information Warehouse<sup>3</sup> vendor table (which contains all vendor information entered in MMARS and provides details on any changes made to vendor information) to the WSU-compiled list for completeness. We also verified the accuracy of the vendor list by tracing the information on the list back to the supporting documentation (i.e., W-9 forms, letters

- 
2. A business entity summary details information about an organization, including tax identification number, legal name, and address.
  3. According to the website of the Executive Office for Administration and Finance, the Commonwealth Information Warehouse is a repository of "financial, budgetary, human resource, payroll and time reporting information."

written to CTR detailing the creation or change, and EFT forms). We determined that the list of vendor creations and changes in MMARS was sufficiently reliable for our audit purposes.

---

## DETAILED AUDIT FINDINGS WITH AUDITEE'S RESPONSE

### 1. Westfield State University did not always perform or document a verification of vendor/customer information.

For 10 of the 13 vendor/customer creations or changes during our audit period, there was no documentation to substantiate that Westfield State University (WSU) personnel verified the accuracy of information on an Internal Revenue Service W-9 form or electronic fund transfer (EFT) form obtained from the vendor/customer before making or changing entries in the Massachusetts Management Accounting and Reporting System (MMARS). These changes were based on requests to create vendor/customer files or to change vendors' legal names, legal addresses, and/or EFT information.

Additionally, in February 2020, a WSU employee made a change to the banking information in a vendor/customer file without verifying the information in the change request, resulting in WSU transferring \$1.75M to an unauthorized account. Upon discovering the transfer, WSU immediately reported it to the Office of the State Auditor in accordance with Chapter 647 of the Acts of 1989, as well as to other proper authorities. WSU recovered all the funds, so there was no loss. WSU officials told us it was their understanding that the event was still under investigation by state and federal authorities.

A lack of documented verification causes a higher-than-acceptable risk of improper payments such as the one discussed above.

### Authoritative Guidance

WSU's internal control plan states,

*Each Commonwealth Department Head (the University President) has the responsibility to ensure that the department conducts all fiscal business in accordance with state finance law, including but not limited to . . . policies and procedures of the Office of the Comptroller (CTR).*

Section 4c of the Office of the Comptroller of the Commonwealth's (CTR's) "Vendor/Customer File and W-9s" policy describes the process that state agency personnel must follow when changing information in vendor/customer files:

*Verification of [created or modified vendor/customer] information should not be done solely through email, but should be followed up with a phone call and verified with an authorized signatory, or whatever other actions are necessary to document that the Department has*

*investigated that the . . . change or additional remittance address is appropriate and properly authorized.*

CTR's "Vendor/Customer File and W-9s" policy states,

*Departments must ensure the legal and remittance address, classification and [Social Security number or employer identification number] are recorded correctly . . . in MMARS.*

Additionally, WSU's "Bank Wire Procedures" require verification, with an authorized signatory of the vendor, of the validity of requested changes to banking information in vendor/customer files:

*If [banking] information has changed since the last time a [payment] was initiated to the [vendor], Financial Accounting verifies this information with the vendor through means other than email (i.e. a telephone call using publicly published information) not just from the information provided by the requestor.*

## Reasons for Issues

WSU officials told us that although there is no documentation, university personnel did verify the accuracy of the 10 vendor-requested creations or changes in question before making the changes in MMARS. However, without documentation, there is nothing to substantiate to what extent, if any, the required verification process was conducted. WSU officials told us they were not aware that the verification needed to be documented. The university's procedures for changes to, or creation of, vendor/customer files do not require personnel to document the measures they take to verify the information a vendor provides in its creation or change request.

WSU also does not have any monitoring controls (e.g., a supervisory review process) to ensure that the verification is performed.

Regarding the instance of an employee not following WSU verification procedures, WSU officials stated that the employee attempted to call the vendor to verify the information, but could not reach anyone, and the employee decided to process the requested change anyway.

## Recommendations

1. WSU should amend its procedures to ensure that verification is properly performed before creations or changes are processed and require all personnel to document the measures they take to verify the information vendors provide in requests to create or change information in their files.
2. WSU should implement effective monitoring controls (e.g., a supervisory review process) to ensure that its staff complies with this requirement.

## Auditee's Response

*The Vendor Review Procedure in Banner [WSU's accounting system] and MMARS has been updated and implemented. This procedure complies with the Commonwealth of Massachusetts, Office of the Comptroller, Vendor/Customer File and W-9's Policy. This procedure also includes steps that document this process coupled with supervisory review.*

*The University's procedures have been updated to require actions to be documented on a newly created form entitled Vendor Electronic Payment Instructions—Addition/Change Documentation Form, which requires a review and approval process when updating or adding vendor banking information.*

## Auditor's Reply

Based on the reply above, WSU is responding to our concerns.

2. WSU did not ensure that information system security awareness training was completed as required by the Executive Office of Technology Services and Security.

WSU did not ensure that employees who had access to its systems received information system security awareness training as required by the Executive Office of Technology Services and Security (EOTSS). Specifically, WSU did not provide initial information system security awareness training to new employees when they were hired or require employees to receive training each year. WSU officials conducted periodic training using a PowerPoint presentation, but attendance was not required. Without this training, WSU is exposed to a higher risk of cybersecurity attacks, such as the one discussed in the previous finding, and financial and/or reputation losses.

## Authoritative Guidance

EOTSS's "Information Security Risk Management Standard" states,

*Commonwealth Offices and Agencies must ensure that all personnel are trained on all relevant rules and regulations for cybersecurity. . . .*

*All new personnel must complete an Initial Security Awareness Training course. . . . All personnel will be required to complete Annual Security Awareness Training.*

## Reasons for Issues

WSU did not have a formal program requiring new and existing users to take information system security awareness training. Initially, WSU officials told us that training was not required upon hire for

new employees or annually for all employees because they believed they could not require the training in WSU's collective bargaining agreements or policies, since the agreements did not include compensation for the extra time needed for such training. They stated that for this reason, they could not mandate information system security awareness training or implement a formal policy requiring it. However, during the audit, WSU researched this issue and determined that it could require the training of all employees, including those under collective bargaining agreements.

### Recommendations

1. WSU should implement a formal information system security awareness training program requiring new users to receive training and existing users to be retrained annually.
2. WSU should establish monitoring controls to ensure that all of its employees with access to its systems comply with these requirements.

### Auditee's Response

*WSU currently conducts security awareness training with all constituents who are required to attend training for [Payment Card Industry—Data Security Standard] compliance. Knowing more is needed in this area, at onboarding and for periodic review, WSU has purchased and begun the implementation process of a security awareness education program software that will allow for ad-hoc, scheduled, refresher training and compliance monitoring to meet the needs for good security practice, compliance, and the ever-changing security landscape.*

### Auditor's Reply

Based on the response above, WSU is responding to our concerns.

## ***AUDITORS' RESPONSIBILITY UNDER GAAS***

- We have a responsibility to conduct our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.
- In carrying out this responsibility, we planned and performed the audit to obtain reasonable – not absolute – assurance about whether the basic financial statements are free of material misstatement, whether caused by error or fraud.
- An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we express no such opinion.

# Required Communications - Continued

## ***AUDITORS' RESPONSIBILITY UNDER GAAS - Continued***

- We issued an unmodified opinion on the University's financial statements.
- No material weaknesses/significant deficiencies were noted within the Report on Internal Control over Financial Reporting and on Compliance and Other Matters

# Required Communications - Continued

## **Significant Accounting Policies and Transactions**

- Initial Selection of or Changes in Policies
  - All accounting policies are discussed in Note 1 of the financial statements.
- Significant Transactions:
  - HEERF and SIP funds- In response to the Coronavirus Pandemic the Federal Government awarded the University approximately \$25.6 million in grant funding. Of this total, approximately \$11 million is required to be distributed to students as emergency grants. The remaining \$14.6 million can be used by the University to cover any COVID-19 related costs or lost revenue (institutional costs). As of June 30, 2021 the University has recognized approximately \$11.9 million of these funds (\$4.4 million student, \$7.5 million institutional costs).
  - MSCBA Bond Refunding- In July 2020 the MSCBA partially refunded the University's outstanding bonds with the goal of providing budgetary relief for FY2021 and FY2022. This refunding resulted in a deferred loss of approximately \$2.4 million.

# Required Communications - Continued

## **Significant Accounting Policies and Transactions – Continued**

- **Independence**
  - We are not aware of any relationships between O'Connor & Drew and the University that in our professional judgment may reasonably impact our independence.
  - Related to our audit for 2021, we are independent with respect to the University within the meaning of the pronouncements of the Independence Standards Board, *Government Auditing Standards*, and under Rule 101 of the AICPA Code of Professional Conduct.
  
- **Audit Adjustments and Uncorrected Misstatements**
  - There were no audit differences recorded as a result of the audit that are required to be communicated to the Committee.
  - There were no uncorrected misstatements that are required to be communicated to the Committee.

# Required Communications - Continued

## ***MANAGEMENT'S JUDGMENTS AND ACCOUNTING ESTIMATES***

- Allowance for doubtful accounts
- Depreciable lives of capital assets
- Fringe benefits
- Net position classifications
- Net pension liability
- Net OPEB liability

## ***OTHER COMMUNICATIONS***

- Disagreements with management – None
- Consultation with other accountants/auditors:
  - Auditors for the Massachusetts State Employees' Retirement and OPEB Plans
- Major issues discussed with management prior to retention – None
- Difficulties encountered in performing the audit – None
- Significant written communications between the auditor and management:
  - Engagement letter
  - Management representation letter
  - Uniform Guidance Report

# Required Communications - Continued

## ***MANAGEMENT ADVISORY SERVICES/TAX SERVICES***

- No management advisory services were performed by O'Connor & Drew during 2021.
- O'Connor & Drew performed a Single Audit as required by the Uniform Administrative Requirements, Cost Principles, and Audit Requirements.
  - The final results of the Single Audit will be discussed at a later meeting.

# Financial Statement Fraud Risks

## ***PERVASIVE RISK***

- No pervasive financial statement fraud risks were identified.

## ***SPECIFIC RISKS PRESUMED BY AUDITING STANDARDS***

- Risk of misstatement relating to revenue recognition
- Risk of management override of controls
  - Journal entries and adjustments
  - Revenue recognition
  - Significant accounting estimates
  - Significant unusual transactions

## ***UNIVERSITY'S SPECIFIC RISKS***

- General economic factors affecting all entities

## GASB Statement 87, *Leases*

- Effective for periods beginning after June 15, 2021
- A lease will be defined as a contract that conveys control of the right to use another entity's nonfinancial asset (e.g. building) for a period of time
- GASB 87 will require lessees to recognize on their balance sheet the rights as an asset and obligations as a liability
- Leases with terms of less than twelve months will not be required to be recognized on the balance sheet under GASB 87
- Currently, leases that meet the capital lease test in which the lessee has ownership rights are recognized on the balance sheet. Leases that do not meet the capital lease test are not recognized on the balance sheet but their terms are disclosed in the notes to the financial statement

# INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of  
Westfield State University  
Westfield, Massachusetts

## Report on the Financial Statements

We have audited the accompanying financial statements of Westfield State University (an agency of the Commonwealth of Massachusetts) (the "University"), and its discretely presented component unit, the Westfield State Foundation, Inc. (the "Foundation"), which comprise the statements of net position as of June 30, 2021 and 2020, the related statements of revenues and expenses, changes in net position, and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express opinions on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the University and its discretely presented component unit as of June 30, 2021 and 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Schedules**

Our audits were conducted for the purpose of forming an opinion on the University's basic financial statements. The supplemental schedules listed in the accompanying table of contents, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated **DATE**, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

**Management's Discussion and Analysis (Unaudited)**

**June 30, 2021**

**Introduction**

The following discussion and analysis provides an overview of the financial position and results of operations of Westfield State University (the "University") for the fiscal year ended June 30, 2021, with comparative information for the year ended June 30, 2020. This discussion has been prepared by management along with the financial statements and footnotes. Since this analysis is designed to focus on current activities, resulting changes and currently known facts, it should be read in conjunction with the basic financial statements and notes thereto. The financial statements, footnotes and this discussion are the responsibility of management.

Westfield State University is a comprehensive public institution of higher learning with approximately 4,800 full time equivalent combined day and evening students. The campus is located in Westfield, Massachusetts and offers undergraduate majors in both the traditional arts and sciences and in professional fields with multiple options for discipline-specific or interdisciplinary minors and concentrations. There are also several graduate-level degree and certificate programs offered by the College of Graduate and Continuing Education. This broad range of graduate programs and undergraduate majors, minors, and concentrations reflect the commitment of Westfield State University to providing quality educational programs.

**Financial Highlights**

- The University's financial position increased during the fiscal year ended June 30, 2021, with a \$9.8 million or 24.0% increase in total net position. The increase was largely related to the recognition of state capital appropriation revenue in the amount of \$4.8 million for the work completed during the fiscal year on the campus steam line project (\$3.6 million) and the Parenzo Hall project (\$1.2 million). In addition, the University recognized \$4.5 million in investment income related to our investment portfolio. Net position, which represents the residual interest in the University's assets and deferred outflows after liabilities and deferred inflows of resources are deducted, increased to \$50.6 million from \$40.8 million in 2020.
- Expenses incurred during fiscal year 2021 totaled \$119.2 million. Revenues from tuition and fees, state capital support and appropriations, grants, and other sources totaled \$129.0 million resulting in an increase in net position of \$9.8 million. Expenses incurred during fiscal year 2020 totaled \$140.6 million. Revenues from tuition and fees, state capital support and appropriations, grants, and other sources totaled \$139.5 million resulting in a decrease in net position of \$1.1 million.

**GASB No. 68 – Accounting and Financial Reporting For Pensions and GASB No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions**

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, established standards for how governmental employers (and other entities) that contribute to state and local pension plans report liabilities and plan details on their financial statements. GASB 68 and its required disclosures were implemented in fiscal year 2015. GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions established standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense related to OPEB. The tables below show the financial statement impact of GASB 68 and GASB 75 in fiscal years 2021 and 2020:

	<b>2021</b>		
	<b>Pension</b>	<b>OPEB</b>	<b>Total</b>
<b>Statement of Net Position (Balance Sheet)</b>			
Deferred outflows (like an Asset)	\$ 10,660,301	\$ 17,157,536	\$ 27,817,837

Total	\$ 3,754,716	\$ 4,918,445	\$ 8,673,161

The required reporting of the pension and OPEB liability on the financial statements of the University reduced the unrestricted net position as follows:

**Effect of GASB 68 and GASB 75 on Unrestricted Net Position**

	<b>Without Pension/OPEB</b>	<b>Pension/ OPEB Adjustment</b>	<b>With Pension/OPEB</b>
Unrestricted net position, June 30, 2019, as restated	\$ 51,968,732	\$ (89,921,136)	\$ (37,952,404)

Unrestricted net position, June 30, 2021	\$ 66,418,882	\$ (103,613,195)	\$ (37,194,313)

The combined impact of the pension and OPEB liabilities for fiscal year 2021 and 2020 is a reduction in unrestricted net position of \$103.6 million and \$98.6 million, respectively.

**Management's Discussion and Analysis (Unaudited) - Continued**

**June 30, 2021**

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the University's basic financial statements. Westfield State University's basic financial statements are comprised of two components: 1) the financial statements and 2) the notes to the financial statements.

**The Financial Statements**

The financial statements are designed to provide readers with a broad overview of Westfield State University's finances in a manner similar to a private-sector university. The University's financial report includes three financial statements: the *Statements of Net Position*, the *Statements of Revenues and Expenses and Changes in Net Position* and the *Statements of Cash Flows*.

These statements have been prepared in accordance with Government Accounting Standards Board (GASB) principles. These principles establish standards for external financial reporting for public colleges and universities and require that financial statements be presented on a consolidated basis to focus on the institution. A description of the financials is as follows:

The Westfield State Foundation, Inc. (the 'Foundation'), a component unit of the University, is an independent not-for-profit corporation operated exclusively for charitable, scientific, and educational purposes for the benefit of the University. The financial information of the Foundation has been discretely presented and included within these financial statements because of the nature and significance of its relationship with the University. Complete financial statements for the Foundation can be obtained from its administrative office in Westfield, Massachusetts.

The *Statements of Net Position* present the financial position of the University at the end of the fiscal year and include all assets and deferred outflows of resources less liabilities and deferred inflows of resources of the University. The difference between these amounts, net position, is one indicator of the current financial position of the University, while the change in net position serves as a useful indicator of whether the financial position of the University is improving or deteriorating.

The *Statements of Revenues and Expenses and Changes in Net Position* present the University's results of operations and other non-operating revenues and present information showing how the University's net position changed during the most recent fiscal year.

**Overview of the Financial Statements - Continued**

The *Statements of Cash Flows* provide additional information about the University's financial results by reporting the major sources and uses of cash. Government Accounting Standards Board (GASB) Statements 34 and 35 require that the direct method be used to prepare this statement. The direct method of cash flow reporting portrays the net cash flow from operations by major categories of operating receipts and disbursements.

The financial statements can be found on pages 19-22 of this financial report.

**Notes to the Financial Statements**

The footnotes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 23-68 of this financial report.

**Other Information**

In addition to the financial statements and accompanying footnotes, this financial report also contains certain required supplementary information concerning the University's Building Authority trust fund. This supplementary information can be found on pages 78-79 of this financial report.

**Financial Analysis of the University**

The University's total net position increased by \$9.8 million or 24.0% in fiscal year 2021 and decreased by \$1.1 million or 2.6% in fiscal year 2020. A summary of the University's assets, deferred outflows, liabilities, deferred inflows and net position as of June 30, is presented below:

Total assets in fiscal year 2021 increased by \$18.7 million or 10.4% over the prior year due to an increase in cash (\$7.7 million), accounts receivable (\$3.9 million), capital assets (\$3.7 million), and investments (\$3.8 million), offset by decreases in other assets (\$.4 million). Total liabilities in fiscal year 2021 decreased by \$0.9 million or 0.6% over the prior year due to the increase in current liabilities of \$3.0 million offset by a decrease in non-current liabilities of \$3.9 million. The \$2.4 million increase in deferred outflows of resources is primarily related to the loss on bond refunding of our debt with the MSCBA and the \$12.3 million increase in deferred inflows of resources was due to the adjustments related to the fiscal year 2021 pension and OPEB activity.

Total assets in fiscal year 2020 increased by \$5.6 million or 3.2% over the prior year due to an increase in accounts receivable (\$1.0 million) and an increase in capital assets (\$4.6 million). Total

liabilities in fiscal year 2020 decreased by \$5.8 million or 3.8% over the prior year primarily due to the decrease in the net OPEB liability of \$6.0 million, decreases in current liabilities and bonds payable and an increase net pension liability. The \$4.7 million decrease in deferred outflows of resources and \$7.9 million increase in deferred inflows of resources was primarily due to the adjustments related to the fiscal year 2020 pension and OPEB activity.

A condensed summary of the Statements of Revenues and Expenses for the years ended June 30 is as follows:

The following is a graphic illustration of operating revenues by source, as a percent of total operating revenue, which were used to fund the University's operating activities for the years ended June 30, 2021, 2020 and 2019.

**Operating Revenues by Source**

The University's operating revenues consist primarily of tuition and fee revenues and residence and dining fee revenues. Tuition and fees revenue decreased \$3.7 million or 6.5% during the fiscal year ended June 30, 2021 and decreased \$0.4 million or 0.7% during the fiscal year ended June 30, 2020. The decrease in fiscal year 2021 was due to an increase in the general fee of \$290 per student (\$1.0 million impact) combined with an increase in graduate and continuing education tuition and fees of \$0.7 million offset by the revenue decrease due to lower enrollment (\$5.4 million). The decrease in fiscal year 2020 was due to an increase in the general fee of \$420 per student (\$1.7 million impact) combined with an increase in graduate and continuing education tuition and fees of \$0.8 million offset by the revenue decrease due to lower enrollment (\$2.9 million).

Residence and dining fee revenue generated by the auxiliary operations of the University's food service and building authority trust funds was \$8,590,132, \$21,158,360 and \$26,579,581 for the years ended June 30, 2021, 2020 and 2019, respectively. The significant decrease in revenues for the year ended June 30, 2021 in the amount of \$12,568,228 or 59.4%, is a direct result of the pandemic. Contributing to the losses were the delay in opening the residence halls in September and the early closure of the residence halls in November along with the fact that social distancing guidelines for resident students resulted in fewer available rooms. At June 30, 2020, residence and dining fee revenue decreased \$5,421,221 or 20.4%.

Tuition and fees received by the University include the following at June 30:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Tuition	<b>\$16,773,029</b>	\$16,480,133	\$15,723,395
Student Fees:

Student activity fees	<b>995,119</b>	1,396,064	1,580,461
Capital improvement fees	<b>349,570</b>	393,990	421,420

Total	<b>\$53,243,430</b>	\$56,967,200	\$57,377,085

In fiscal year 2019, the annual technology fee was reduced by \$870 and reclassified to the general fee to better align with actual technology costs.

The University's total operating expenses decreased significantly during fiscal year ended June 30, 2021 by \$21.3 million or 15.2% as compared to a \$1.6 million or 1.2% increase for the fiscal year ended June 30, 2020. The decrease in fiscal year 2021 is the result of many factors including a decrease in debt service payments to the Massachusetts State College Building Authority of \$8.3 million, a decrease in OPEB expense of \$4.0 million, compensation decreases of \$3.6 million in full-time employee compensation and \$2.9 million in contracted employee compensation, a \$.7 million decrease in campus-wide spending, and an increase in capitalized maintenance projects of \$1.8 million.

**Financial Analysis of the University - Continued**

The University's liquidity increased during the year ended June 30, 2021 with a \$7,630,385 increase in cash and equivalents. The following discussion further amplifies the overview of cash flows presented above.

During the year ended June 30, 2021, the University's net cash applied to operating activities decreased by \$4.4 million over the prior year. This was due to a decrease in cash received of \$22.9 million and a decrease in payments made of \$27.3 million. Net cash provided by non-capital financing activities increased by \$2.7 million mostly due to an increase in federal HEERF grant funding. Net cash provided by capital financing activities increased by \$0.4 million mainly due to an increase in capital asset purchases of \$1.0 million offset by a decrease in principal and interest paid on bonds payable of \$1.4 million. The \$20.2 million increase in net cash provided by investing activities was due to the decrease in purchase of investments of \$26.6 million offset by combined decreases in proceeds from the sales of investments and interest income of \$6.4 million.

The University's liquidity decreased during the year ended June 30, 2020 with a \$19,986,792 decrease in cash and equivalents primarily due to the purchase of investments. The following discussion further amplifies the overview of cash flows presented above.

During the year ended June 30, 2020, the University's net cash applied to operating activities increased by \$13.8 million over the prior year. This was due to a decrease in cash received of \$9.3 million and an increase in payments made of \$4.5 million. Net cash provided by non-capital financing activities increased by \$4.6 million due to an increase in direct state appropriations received of \$2.0 million primarily for collective bargaining costs, an increase of \$2.1 million from CARES Act funding, and \$0.5 million received from the Massachusetts State College Building Authority. Net cash applied to capital financing activities decreased by \$2.8 million mostly due to an increase in state capital appropriations (\$2.6 million) and a decrease in capital asset purchases (\$0.2 million). The \$19.6 million decrease in net cash provided by investing activities was due to the purchase of investments. In September, 2019 the University transferred \$20 million to an investment account managed by Eaton Vance Investment Counsel.

The following table presents the University's incurred losses from operations and its net non-operating revenues for the fiscal years ended June 30, 2021, 2020 and 2019.

<b>Increase (Decrease) in net position</b>	<b>\$ 9,800,713</b>	\$ (1,089,034)	\$ (8,442,938)

Due to the nature of accounting for appropriations as non-operating revenues in accordance with GASB principles, the University incurred a loss from operations. The Commonwealth's Department of Higher Education establishes tuition rates while the University sets fees and other charges. The University, with the purpose of balancing educational and operational needs with tuition and fee revenue, approves budgets to mitigate losses after Commonwealth appropriations.

The \$7.6 million increase in net non-operating revenues during fiscal year 2021 is attributable to an increase in net investment income of \$4.0 million combined with an increase in other revenues of \$3.7 million (mostly HEERF grant funding), a \$1.8 million increase in net state appropriation, a decrease in other expenses of \$.2 million and a decrease in state capital appropriation in the amount of \$2.1 million.

**Loss from Operations – Continued**

The \$15.8 million increase in net non-operating revenues during fiscal year 2020 is attributable to an increase in state capital appropriation in the amount of \$9.9 million combined with an increase in other revenues of \$4.5 million (mostly CARES Act funding), a \$1.1 million increase in net state appropriation and a \$0.3 million increase in net investment income. The state capital appropriation increase was mainly due to the recognition of revenue related to two major projects; the steam line infrastructure project (\$7.6 million) and the Parenzo Hall renovation project (\$2.1 million) which were both in progress at June 30, 2020.

**Capital Assets**

A summarized comparison of the University's capital asset categories at June 30, 2021, 2020 and 2019 is as follows:

	<b>2021</b>	<b>2020</b>	<b>2019</b>

Capital assets, net	<b>\$ 107,430,822</b>	\$ 103,692,276	\$ 99,116,839

The University's investment in capital assets, net of accumulated depreciation, as of June 30, 2021, 2020 and 2019 was \$107,430,822, \$103,692,276, and \$99,116,839, respectively. Investment in capital assets includes land, land improvements, buildings and improvements, furnishings and equipment, construction in progress, and library books. Capital assets increased by \$3,738,546 or 3.6% during the fiscal year ended June 30, 2021 and increased by \$4,575,437 or 4.6% during fiscal year ended June 30, 2020. The increase during fiscal years ended June 30, 2021 and 2020 was a result of capital additions outpacing depreciation expense. In fiscal year 2021, the University increased its fixed asset capitalization threshold from \$25,000 to \$40,000 with a plan to reach a \$50,000 threshold in fiscal year 2022 in order to be consistent with other Commonwealth agencies. This change will result in the University recognizing more non-capital expenses in the year the assets are purchased rather than spreading the costs over multiple years.

Capital additions during fiscal year ended June 30, 2021 amounted to \$8,985,423 as compared to \$9,901,588 for the year ended June 30, 2020.

Major additions during 2021 include \$6.0 million in construction in progress for; improvements to the steam line infrastructure (\$3.6 million), renovation of Parenzo Hall (\$1.6 million), replacement of the floor in the dining commons (\$.5 million), and HVAC upgrades (\$.3 million); \$1.0 million in roof replacements, \$.9 million to stabilize and repair the slope, \$.3 million in mass notification upgrades in Bates Hall and Horace Mann Center, and \$.8 million in information technology-related upgrades.

Major additions during 2020 include \$7.6 million in construction in progress for additional improvements to the steam line infrastructure, \$2.1 million in construction in progress for the Parenzo Hall renovation project and \$.2 million for the installation of security cameras throughout the campus.

**Looking Ahead**

The University welcomed a new President on July 1, 2021. Dr. Thompson was most recently the Dean of the College of Nursing and Health Sciences at University of Massachusetts Boston. She holds BSN and MSN degrees from Wayne State University and masters and doctoral degrees in public health from Johns Hopkins University. The campus community is excited and looks forward to working collaboratively with Dr. Thompson to achieve her vision and strategic goals. Her experience and leadership will be essential in helping the University navigate through these challenging times in higher education.

The University has completed and received Massachusetts Department of Higher Education approval for the new strategic plan for FY19-24. Implementation of the plan began in FY20 and will continue through FY24. The primary goals of the plan are focused on four overarching goals: a. Student Experience b. Enrollment c. Culture and d. Resources. The priorities and initiatives in the strategic plan will align with our resource allocation process to meet these goals. Additionally, there is a major capital investment project in process, the renovation of Parenzo Hall (a \$40-million-dollar project), a primary classroom and multi-service facility. Construction began in summer 2021 with a projected completion date of summer 2023, although due to unforeseen circumstances there may be a potential delay in the timeline. As a public university, continued and increasing financial support from the state is vital to serve the growing needs of a diverse student population and to increase access and affordability for prospective students.

**Looking Ahead – Continued**

One of the most significant ongoing challenges for the University is responding to the COVID-19 pandemic. Maintaining ongoing operations and ensuring a safe living and learning environment continues to be a priority. In order to maintain full operations, the University has developed a variety of contingency plans and has implemented many safety measures. Despite these actions, occupancy levels for residential students and overall enrollment remains challenged. Nonetheless, Westfield State University is committed to providing the best educational experience for its students despite these challenges and obstacles.

*Organization*

Westfield State University (the "University") is a public, state-supported university located in Westfield, Massachusetts and governed by a local Board of Trustees under the direction of the Massachusetts Department of Higher Education. The University is empowered to award baccalaureate and post-graduate degrees in education, business, and arts and sciences, as well as conduct programs of continuing education. The University is accredited by the New England Commission of Higher Education.

*COVID-19*

On March 11, 2020, the World Health Organization declared the global outbreak of the novel coronavirus (COVID-19) as a pandemic. During the year ended June 30, 2021, COVID-19 had a significant effect on the University's operations in response to government requirements and observing safety measures. As a result, the University's maximum housing's capacity decreased by approximately 65% and 21% for the Spring 2021 and Fall 2020 academic semesters, respectively.

In response to the pandemic, the Federal government provided to the University the Higher Education Emergency Relief Funds (HEERF) and funds for the Strengthening Institution Program (SIP) under the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and American Rescue Plan Act (ARPA). The HEERF consisted of the student aid award and the institutional award. Each Act requires a minimum amount to be spent on student aid.

The student aid award is required to be distributed to students as emergency grants for their expenses related to the disruption of campus operations due to coronavirus. The institutional award and the SIP can be used to cover any costs associated with significant changes to the delivery of instruction due to the coronavirus. Unless an extension is approved by the Department of Education, the student aid award and the institutional award must be spent by August 5, 2022, while the SIP funding must be spent by May 24, 2022.

Note 1 - **Summary of Significant Accounting Policies - Continued**

*Basis of Presentation*

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as prescribed by the *Governmental Accounting Standards Board* (“GASB”).

Westfield State Foundation, Inc. (the “Foundation”) is a related tax-exempt organization founded to foster and promote the growth, progress and general welfare of the University. The Foundation is included in the University’s financial statements and is reported in a separate column from the University to emphasize that it is a Massachusetts not-for-profit organization legally separate from the University. Because of the significance of its financial relationship with the University, the Foundation is included in the University’s financial statements. Complete financial statements can be obtained from the Foundation's administrative office in Westfield, Massachusetts.

Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. The University’s policy for defining operating activities in the statement of revenues, expenses are those that generally result from exchange transactions such as the payment received for services and payment made for the purchase of goods and services. Certain other transactions are reported as non-operating activities. These non-operating activities include the University’s operating and capital appropriations from the Commonwealth of Massachusetts (the “Commonwealth”), net investment income, gifts and interest expense.

The University has determined that it functions as a business-type activity, as defined by GASB. The effect of interfund activity has been eliminated from these financial statements. The basic financial statements and required supplementary information for general-purpose governments consist of management’s discussion and analysis, basic financial statements and required supplementary information. The University presents statements of net position, revenues and expenses, changes in net position, and cash flows on a combined University-wide basis.

**June 30, 2021 and 2020**

Note 1 - **Summary of Significant Accounting Policies - Continued**

*Net Position*

Resources are classified for accounting purposes into the following four net asset categories:

Net Investment in capital assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, repair or improvement of those assets.

Restricted - nonexpendable: Net position subject to externally imposed conditions such that the University must maintain the funds in perpetuity.

Restricted - expendable: Net position whose use is subject to externally imposed conditions that can be fulfilled by the actions of the University or the passage of time.

Unrestricted: Net position that is not subject to externally imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of management or the Board of Trustees or may otherwise be limited by contractual agreements with outside parties.

The University has adopted a policy of generally utilizing restricted - expendable funds, when available, prior to unrestricted funds.

*Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the dates of the financial statements and revenues and expenses recognized during the reporting periods. The University's significant estimates include the accrual for employee compensated absences, the accrual for workers' compensation liability, net pension and OPEB liabilities, the allowance for doubtful accounts, and the useful lives of capital assets. Actual results could differ from those estimates.

*Trust Funds*

In accordance with the requirements of the Commonwealth of Massachusetts, the University's operations are accounted for in several trust funds. All trust funds have been consolidated and are included in the accompanying financial statements.

*Cash and Equivalents*

The University's cash and equivalents are cash on hand, cash and deposits held with the Commonwealth's Treasurer and Massachusetts State College Building Authority ("MSCBA"), which are short-term, highly liquid investments with original maturities of three months or less from the date of acquisition.

*Allowance for Doubtful Accounts*

Accounts and pledges receivable are periodically evaluated for collectability. Provisions for losses on receivables are determined on the basis of loss experience, known and inherent risks in the loan portfolio, the estimated value of underlying collateral and current economic conditions.

*Investments*

Investments in marketable securities are stated at fair value.

Dividends, interest, and net gains or losses on investments of endowments and similar funds are reported in the statements of revenues, expenses and changes in net position. Any net earnings not expended are included in net position categories as follows:

- A) as increases in restricted – nonexpendable net position if the terms of the gift require that they be added to the principal of a permanent endowment fund;
- B) as increases in temporarily restricted – expendable net position if the terms of the gift or the University's interpretation of relevant state law impose restrictions on the current use of the income or net gains. The University has relied upon the Attorney General's interpretation of state law that unappropriated endowment gains should generally be classified as restricted - expendable; and
- C) as increases in unrestricted net position in all other cases.

Note 1 - **Summary of Significant Accounting Policies - Continued**

*Capital Assets*

Real estate assets, including improvements, are generally stated at cost. Furnishings, equipment and collection items are stated at cost at date of acquisition or, in the case of gifts, at fair value at date of donation. In accordance with the University's capitalization policy, non-collection items with a unit cost of more than \$40,000 are capitalized. Library materials are generally expensed during the year. University capital assets, with the exception of land and construction in progress, are depreciated on a straight-line basis over their estimated useful lives, which range from 3 to 40 years. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

*Restricted Gifts*

The University recognizes restricted gifts as revenues or receivables when all applicable eligibility requirements, including time requirements, are met.

*Grants and Contracts*

The University receives monies from the federal and state government and other private agencies under grants and contracts. The costs, both direct and indirect, charged to these grants and contracts are subject to audit by the granting agency. The University administration believes that any audit adjustments would not have a material adverse effect on the University's financial position, its revenues, expenses and changes in net position, or its cash flows.

*Compensated Absences*

Employees earn the right to be compensated during absences for vacation and sick leave or when using compensatory time. Accrued vacation and compensatory time is the amount earned by all eligible employees through June 30, 2021 and 2020. The accrued sick leave balance represents 20% of amounts earned by those employees with ten or more years of state service at June 30, 2021 and 2020. Upon retirement, those employees are entitled to receive payment for this accrued balance. Funding of these amounts is anticipated to be part of the future annual appropriation process from the Commonwealth of Massachusetts.

*Deposits and Unearned Revenue*

Deposits and advance payments received for tuition and fees related to certain summer programs and tuition received for the following academic year are deferred. Funds received in advance from various grants and contracts are deferred. Deposits and unearned revenue are recorded as revenue when earned.

*Deposits Held by State Treasurer*

Deposits held represents funds accessible by the University held by the Commonwealth of Massachusetts for payments on payroll.

*Pensions*

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Massachusetts State Employees' Retirement System plan ("SERS") and the additions to/deductions from SERS' fiduciary net position have been determined on the same basis as they are reported by SERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Post-employment Benefits Other Than Pensions ("OPEB")*

For purposes of measuring the University's net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State Retirees' Benefit Trust ("SRBT") and additions to/deductions from SRBT's fiduciary net position have been determined on the same basis as they are reported by SRBT. For this purpose, SRBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

*Student Fees*

Student tuition and other fees are presented net of scholarships and fellowships applied to students' accounts. Certain other scholarship amounts paid directly to, or refunded to, the student are generally reflected as expenses.

*Fringe Benefits*

The University participates in the Commonwealth's fringe benefit programs, including health insurance, unemployment, pension, and workers' compensation benefits. Health insurance, unemployment and pension costs are billed through a fringe benefit rate charged to the University. Workers' compensation costs are assessed separately based on the University's actual experience. The Commonwealth requires the University to record, as a liability, its portion of the future estimated workers' compensation benefits to be paid.

*Income Tax Status*

The University is a component unit of the Commonwealth of Massachusetts and is exempt from federal income taxes under Section 115 of the Internal Revenue Code. The Foundation is also exempt from income taxes under the provisions of Section 501(c)(3) of the Internal Revenue Code.

*New Governmental Accounting Pronouncements*

GASB Statement 87 – *Leases*, is effective for periods beginning after June 15, 2021. Implementation of this standard will require lessees to recognize on their statement of net position the rights and obligations results from leases categorized as operating leases as assets, liabilities, or deferred inflows / outflows of resources. It provides for an election on leases with terms of less than twelve months to be excluded from this Standard. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 89 – *Accounting for Interest Costs Incurred before the End of a Construction Period*, is effective for reporting periods beginning after December 15, 2020. The objectives of this Statement are: (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 91 – *Conduit Debt Obligations*, is effective for reporting periods beginning after December 15, 2021. The objective of this Statement is to improve the consistency of reporting conduit debt. This Statement requires government entities that issue conduit debt, but are not the obligors, not to recognize the liability unless it is more likely than not that the government issuer will service the debt. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 92 – *Omnibus 2020*, is effective for reporting periods beginning after June 15, 2021. The objective of this Statement is to improve comparability in financial reporting for leases, pensions, OPEB, and asset retirement obligations. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 94 – *Public-Private and Public-Private Partnerships and Availability Payment Arrangements*, is effective for reporting periods beginning after June 15, 2022. The objective of this Statement is to provide accounting and financial reporting guidance for arrangements in which the governmental entity (the transferor) contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 96 – *Subscription-Based Information Technology Arrangements (SBITA)*, is effective for reporting periods beginning after June 15, 2022. The objective of this Statement is to provide accounting and financial reporting guidance for transactions in which a governmental entity contracts with another party for the right to use their software. A right-of-use asset and a corresponding liability would be recognized for SBITAs. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 97 – *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457, Deferred Compensation Plans*, is effective for reporting periods beginning after June 15, 2021. The objective of this Statement is to provide financial reporting consistency in which the potential component unit does not have a governing board and the primary government performs the duties that a governing board would perform. In the absence of a governing board of the potential component unit, the situation should be treated the same as the primary government appointing a majority of the potential component unit’s governing board. Management has not completed its review of the requirements of this standard and its applicability.

Note 2 - **Cash and Equivalents**

The carrying amount of the University’s bank deposits and deposits in trust depositories are \$50,497,156 and \$46,560,999, as compared to bank balances of \$50,906,425 and \$47,050,616 at June 30, 2021 and 2020, respectively. The differences between the carrying amount and the bank balances were attributed to deposits in transit and outstanding checks.

Note 2 - **Cash and Equivalents - Continued**

In addition to Federal Deposit Insurance Corporation insurance, the University has deposits insured through collateralization in a pool of eligible securities held by Berkshire Bank's Asset Management/Trust Group as custodian. Amounts remaining that are exposed to custodial risk at June 30, 2021 and 2020 were \$13,409,722 and \$12,320,080, respectively.

Note 3 - **Cash Held by the State Treasurer**

Accounts payable, accrued salaries, wages and withholdings to be funded from state-appropriated funds totaled \$6,142,536 and \$3,825,138 at June 30, 2021 and 2020, respectively. The University has recorded a comparable dollar amount of cash held by the State Treasurer for the benefit of the University, which was subsequently used to pay for such liabilities.

Note 4 - **Investments**

*University*

Short-term investments are categorized according to the level of risk assumed by the University. At June 30, 2021 and 2020, the entire balance of investments represents mutual funds that are held in trust depository accounts in the name of the University and are uninsured. At June 30, 2021 and 2020, the investments are stated at fair value.

At June 30, 2021, the fair value of the University's investments in debt securities by contractual maturities is as follows:

*Fair Value Hierarchy*

The fair value hierarchy categorizes inputs to valuation techniques used to measure fair value into three levels. Level 1 inputs are quoted market prices for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for an asset or liability, directly or indirectly. Level 3 inputs are unobservable inputs. The highest priority is assigned to Level 1 inputs and the lowest to Level 3 inputs. If the fair value is measured using inputs from more than one level of the hierarchy, the measurement is considered to be based on the lowest priority input level that is significant to the entire measurement. Valuation techniques used should maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021 and 2020.

Mutual funds and common stock are valued at daily closing prices as reported by the fund while common stocks and corporate bonds are valued either by using pricing models maximizing the use of observable inputs for similar securities or valued by the investment manager. The stock and mutual funds are classified as Level 1 and are deemed to be actively traded. U.S. Government obligations are valued using quoted prices, documented trade history in the security, and pricing models maximizing the use of observable inputs. Corporate bonds are valued as Level 2 based on the closing price reported in the active market in which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**MSCBA Bonds Payable**

On July 1, 2020 the University's MSCBA Series 2010A, 2010B, 2012A, 2014B, 2019C bonds were partially refunded as part of the MSCBA's Refunding Revenue Bonds Series 2020A. The purpose of the issuance was to provide budgetary relief for fiscal years 2021 and 2022 to the University. The refunding resulted in an economic loss of approximately \$2,060,000 and a deferred loss of approximately \$2,414,000. The first principal payment is due on May 1, 2024, and the final payment is due on May 1, 2044 with an interest rate that ranges from 1.04% to 3.07%. Total principal related to 2020A partial refunding was \$12,095,901. At June 30, 2021 and 2020 the outstanding amounts related to all MSCBA bond series was \$21,465,848 and \$19,107,302 and is included in the project related bond payable amounts described below.

*Science Center Building:*

In December 2014, the University entered into a financing agreement with the MSCBA for partial funding of a new Science Center building. The source of financing for the project is based on the issuance of Project Revenue Bonds issued by MSCBA on behalf of the University (Series 2014B and 2020A). Through its agreements with MSCBA, the University will repay this debt in semi-annual installments, starting November 1, 2015 and ending May 1, 2044, at an annual variable coupon rate averaging 5.0%. MSCBA requires that the University maintain a debt service reserve which totaled \$499,440 and \$664,469 for the years ended June 30, 2021 and 2020, respectively. At June 30, 2021 and 2020, the balance on these bonds related to this project was \$12,685,616 and \$10,534,220, respectively.

*Ely Hall:*

In November 2011, the University entered into a financing agreement with the MSCBA for an expansion of the wellness center, and the relocation of the food services and other student areas in Ely Hall. The source of financing for the project is based on the issuance of Project Revenue Bonds issued by MSCBA on behalf of the University (Series 2012A, 2019C, and 2020A). In fiscal year 2020 the 2012A bond was partially refunded with the Series 2019C bonds resulting in an economic gain of \$414,303 and a deferred gain of \$260,434. As disclosed above, in July 2020 both the Series 2012A and 2019C bonds were partially refunded with the Series 2020A bonds. Through its agreements with MSCBA, the University is to repay this debt in semi-annual installments, starting May 1, 2020 and ending May 1, 2044, at an annual variable coupon rate averaging 2.2%. A debt service reserve fund is not required under this financing arrangement. At June 30, 2021 and 2020, the balance on these bonds related to this project was \$5,806,511 and \$5,915,120, respectively.

*Dining Facility:*

In December 2010, the University entered into a financing agreement with the MSCBA for an expansion of a dining facility. The source of financing for the project is based on the issuance of Project Revenue Bonds issued by MSCBA on behalf of the University (Series 2010A, 2010B, and 2020A). As disclosed above, in July 2020 the Series 2010A and 2010B bonds were partially refunded with the Series 2020A bonds. Through its agreements with MSCBA, the University will repay this debt in semi-annual installments, starting May 1, 2011 and ending May 1, 2044, at an annual variable coupon rate averaging 5.5%. MSCBA requires that the University maintain a debt service reserve which totaled \$202,615 and \$292,021 for the years ended June 30, 2021 and 2020, respectively. At June 30, 2021 and 2020, the balance on these bonds was \$2,973,237 and \$2,657,962, respectively.

*Other Bonds Payable*

During November 2010, the University borrowed \$226,065 in clean renewable energy bonds issue Series 2010A-14 with the Massachusetts Development Finance Agency (“MDFA”). The Series 2010A-14 bonds are payable in annual principal installments of \$13,298 through fiscal year 2027. Interest is payable semiannually at a fixed interest rate of 3.5%. MDFA requires no debt reserve. At June 30, 2021 and 2020, the balance on these bonds was \$79,788 and \$93,086, respectively.

In August 2002, the University borrowed \$5,816,000 in tax-exempt revenue bonds issue Series M-2 with the Massachusetts Health and Educational Facilities Authority (“MHEFA”). The Series M-2 bonds are payable in annual installments through fiscal year 2022 with principal amounts ranging between approximately \$242,000 and \$435,000. Interest is payable monthly at a predetermined varying rate (.054% as of June 30, 2021). MHEFA requires that the University maintain a debt service reserve which totaled \$33,502 and \$31,443 for the years ended June 30, 2021 and 2020, respectively. At June 30, 2021 and 2020, the balance on these bonds was \$844,696.

The University has a \$844,696 letter of credit agreement with Bank of America in support of the above MHEFA revenue bonds. Under the terms of the agreement, the University has pledged its right to receive continuing education tuition and fees, general fees, technical fees, and miscellaneous fees as collateral to Bank of America. The agreement also places certain limits on the University with regard to incurring additional debt; requires the University to maintain a minimum amount of unrestricted cash and equivalents, and to maintain a debt service ratio and debt service reserve fund. Fees paid under the terms of the agreement were \$14,966 and \$13,996 at June 30, 2021 and 2020, respectively. As of June 30, 2021 and 2020, there is no outstanding balance on the letter of credit.

Note 12 - **Pension**

*Defined Benefit Plan Description*

Certain employees of the University participate in a cost-sharing multiple-employer defined-benefit pension plan – the Massachusetts State Employees’ Retirement System (“SERS”) administered by the Massachusetts State Board of Retirement (the “Board”), which is a public employee retirement system (“PERS”). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits through the plan, regardless of the status of the employers’ payment of its pension obligations to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The Massachusetts State Employees’ Retirement System does not issue stand-alone financial statements. Additional information regarding the plan is contained in the Commonwealth’s financial statements, which is available online from the Office of State Comptroller’s website.

Note 12 - **Pension - Continued**

*Benefit Provisions*

SERS provides retirement, disability, survivor and death benefits to members and their beneficiaries. Massachusetts General Laws (“MGL”) establishes uniform benefit and contribution requirements for all contributory PERS. These requirements provide for superannuation retirement allowance benefits up to a maximum of 80% of a member’s highest three-year average annual rate of regular compensation. For employees hired after April 1, 2012, retirement allowances are calculated based on the last five years or any five consecutive years, whichever is greater in terms of compensation. Benefit payments are based upon a member’s age, length of creditable service, group creditable service, and group classification. The authority for amending these provisions rests with the Massachusetts State Legislature (the “Legislature”).

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55. Most employees who joined the system after April 1, 2012, are not eligible for retirement until they have reached age 60.

*Contributions*

The SERS’ funding policies have been established by Chapter 32 of the MGL. The Legislature has the authority to amend these policies. The annuity portion of the SERS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Costs of administering the plan are funded out of plan assets.

Member contributions for SERS vary depending on the most recent date of membership:

<u>Hire Date</u>	<u>Percent of Compensation</u>
Prior to 1975	5% of regular compensation
1975 - 1983	7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation except for State Police which is 12% of regular compensation
1979 to present	An additional 2% of regular compensation in excess of \$30,000

*Contributions - continued*

The Commonwealth does not require the University to contribute funding from its local trust funds for employees paid by state appropriations. Pension funding for employees paid from state appropriations are made through a benefit charge assessed by the Commonwealth. Such pension contributions amounted to approximately \$4,536,000, \$4,185,000, and \$3,458,000 for the years ended June 30, 2021, 2020 and 2019, respectively.

For employees covered by SERS but not paid from state appropriations, the University is required to contribute at an actuarially determined rate. The rate was 14.66%, 14.08%, and 12.06% of annual covered payroll for the years ended June 30, 2021, 2020 and 2019, respectively. The University contributed \$2,483,517, \$2,782,307, and \$2,549,316 for the years ended June 30, 2021, 2020 and 2019, respectively, equal to 100% of the required contributions for each year. Annual covered payroll was approximately 90%, 89%, and 88% of total related payroll for the years ended 2021, 2020 and 2019, respectively.

*Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2021 and 2020, the University reported a liability of \$44,175,215 and \$37,463,840, respectively, for its proportionate share of the net pension liability related to its participation in SERS. The net pension liability as of June 30, 2021, the reporting date, was measured as of June 30, 2020, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2019 rolled forward to June 30, 2020. The net pension liability as of June 30, 2020, the reporting date, was measured as of June 30, 2019, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2019 rolled forward to June 30, 2019.

The University's proportion of the net pension liability was based on its share of the Commonwealth of Massachusetts' collective pension amounts allocated on the basis of actual fringe benefit charges assessed to the University for the fiscal years 2021 and 2020. The Commonwealth's proportionate share was based on actual employer contributions to the SERS for fiscal years 2021 and 2020 relative to total contributions of all participating employers for the fiscal year. At June 30, 2021 and 2020, the University's proportion was 0.257% and 0.256%, respectively.

The University's contributions of \$2,483,517 and \$2,782,307 made during the years ended June 30, 2021 and 2020, respectively, subsequent to the measurement date, will be recognized as a reduction of the net pension liability in each of the succeeding years. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as increases (decreases) in pension expense as follows:

Years Ending <u>June 30,</u>	
2022	\$ 1,369,292
2023	1,927,481
2024	2,002,197

2026	<u>129,645</u>
	<u>\$ 6,806,540</u>

*Actuarial Assumptions*

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Measurement date	June 30, 2020	June 30, 2019
Inflation	3.00%	3.00%
Salary increases	4.00% to 9.00%	4.00% to 9.00%

For measurement dates June 30, 2020 and 2019, mortality rates were based on:

- Pre-retirement - reflects RP-2014 Blue Collar Employees table projected generationally with Scale MP-2016 set forward 1 year for females
- Post-retirement - reflects RP-2014 Blue Collar Healthy Annuitant Table projected generationally with Scale MP-2016 set forward 1 year for females
- Disability – reflects RP-2014 Blue Collar Healthy Annuitant Table projected generationally with Scale MP-2016, set forward 1 year

The 2021 pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of January 1, 2020 and rolled forward to June 30, 2020. The 2020 pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of January 1, 2019 and rolled forward to June 30, 2019.

Investment assets of SERS are with the Pension Reserves Investment Trust (“PRIT”) Fund. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund’s target asset allocation as of June 30, are summarized in the following table:

*Discount Rate*

The discount rate used to measure the total pension liability was 7.15% and 7.25% at June 30, 2021 and 2020, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth's contributions will be made at rates equal to the difference between actuarially determined contributions rates and the member rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 13 - **OPEB**

*Plan Description*

As an agency of the Commonwealth, certain employees of the University participate in the Commonwealth's single-employer defined benefit-OPEB plan - the State Retirees' Benefit Trust ("SRBT"). Benefits are managed by the Group Insurance Commission ("GIC") and investments are managed by the Pension Reserves Investment Management ("PRIM") Board. The GIC has representation on the Board of Trustees of the State Retirees' Benefits Trust ("Trustees").

The SRBT is set up solely to pay for OPEB benefits and the cost to administer those benefits. It can only be revoked when all such health care and other non-pension benefits, current and future, have been paid or defeased. The GIC administers benefit payments, while the Trustees are responsible for investment decisions.

Note 13 - **OPEB - Continued**

*Plan Description - continued*

Management of the SRBT is vested with the Trustees, which consists of seven members including the Secretary of Administration and Finance (or their designee), the Executive Director of the GIC (or their designee), the Executive Director of PERAC (or their designee), the State Treasurer (or their designee), the Comptroller (or a designee), one person appointed by the Governor, and one person appointed by the State Treasurer. These members elect one person to serve as chair of the board.

The SRBT does not issue stand-alone audited financial statements but is reflected as a fiduciary fund in the Commonwealth's audited financial statements.

*Benefits Provided*

Under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care / benefit costs, which are comparable to contributions required from employees. Dental and vision coverage may be purchased by these groups with no subsidy from the Commonwealth.

*Contributions*

Employer and employee contribution rates are set by MGL. The Commonwealth recognizes its share of the costs on an actuarial basis. As of June 30, 2021 and 2020, and as of the valuation date (January 1, 2020 and 2019), participants contributed 10% to 20% of premium costs, depending on the date of hire and whether the participants' status is active, retired, or survivor. As part of the fiscal year 2010 General Appropriation Act, all active employees pay an additional 5% of premium costs.

*Contributions - continued*

The Massachusetts General Laws governing employer contributions to SRBT determine whether entities are billed for OPEB costs. Consequently, SRBT developed an effective contribution methodology which allocates total actual contributions amongst the employers in a consistent manner (based on an employer's share of total covered payroll). The University is required to contribute based on Massachusetts General Laws; the rate was 7.70% and 7.29% of annual covered payroll for the fiscal years ended June 30, 2020 and 2019, respectively. The University contributed \$1,304,124 and \$1,441,304 for the fiscal years ended June 30, 2021 and 2020, respectively, equal to 100% of the required contribution for the year.

*OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB*

At June 30, 2021 and 2020, the University reported a liability of \$56,843,150 and \$70,625,670, respectively, for its proportionate share of the net OPEB liability related to its participation in SRBT. The net OPEB liability as of June 30, 2021, was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2020. The net OPEB liability as of June 30, 2020, was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2019. The University's proportion of the net OPEB liability was based on its share of the Commonwealth's collective OPEB amounts allocated on the basis of an effective contribution methodology which allocates total actual contributions amongst the employers in a consistent manner based on the University's share of total covered payroll for the fiscal years 2020 and 2019. The University's proportionate share was based on the actual employer contributions to the SRBT for fiscal years 2020 and 2019 relative to total contributions of all participating employers for the fiscal year. At June 30, 2021 and 2020, the University's proportion was 0.275% and 0.404%, respectively.

*Actuarial Assumptions*

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Measurement date	June 30, 2020	June 30, 2019
Inflation	2.50%	2.50%
Salary increases	4.0% per year	4.0% per year
Investment rate of return	7.15%, net of OPEB plan investment expense, including inflation	7.25%, net of OPEB plan investment expense, including inflation
Health care cost trend rates	Developed based on the most recent published GAO-Getzen trend rate model, version 2020_b. Medicare and non-medicare benefits range from 4.04% to 6.70%	7.5%, decreasing by 0.5% each year to 5.5% in 2023 and 2024 and then decreasing 0.5% each year to an ultimate rate of 4.5% in 2026 for Medical; 5.0% for EGWP until 2025 then decreasing to 4.5% in 2026; 4.5% for administrative costs

The mortality rate was in accordance with RP 2014 Blue Collar Mortality Table projected with scale MP-2016 from the central year, with females set forward one year.

*Actuarial Assumption - continued*

The participation rates are actuarially assumed as below:

- 100% of all retirees who currently have health care coverage will continue with the same coverage, except that retirees under age 65 with POS/PPO coverage switch to Indemnity at age 65 and those over 65 with POS/PPO coverage switch to HMO.
- All current retirees, other than those indicated on the census data as not being eligible by Medicare, have Medicare coverage upon attainment of age 65, as do their spouses. All future retirees are assumed to have Medicare coverage upon attainment of age 65.
- 35% of employees currently opting out of active employee health coverage are assumed to elect to enroll in retiree coverage for measurement date June 30, 2020.
- 80% of current and future contingent eligible participants will elect health care benefits at age 55, or current age if later for measurement date June 30, 2019.
- Actives, upon retirement, take coverage, and are assumed to have the following coverage:

	2021		2020	
	Under 65	Age 65+	Under 65	Age 65+
Indemnity	28.0%	96.0%	25.0%	85.0%
POS/PPO	60.0%	0.0%	60.0%	0.0%
HMO	12.0%	4.0%	15.0%	15.0%

The actuarial assumptions used in the January 1, 2020 and 2019 valuations were based on the results of an actuarial experience study for the periods ranging July 1, 2018 and 2017 through December 31, 2019 and 2018, depending upon the criteria being evaluated.

**(an agency of the Commonwealth of Massachusetts)**

**Notes to the Financial Statements - Continued**

**June 30, 2021 and 2020**

Note 13 - **OPEB - Continued**

*Actuarial Assumption - continued*

As a result of this actuarial experience study, the mortality assumption was adjusted in the January 1, 2019 and 2018 actuarial valuations to more closely reflect actual experience as a result of the recent experience study completed by the Public Employee Retirement Administration Commission ("PERAC").

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. The SRBT is required to invest in the PRIT Fund. Consequently, information about SRBT's target asset allocation and long-term expected real rate of return as of June 30, 2021 and 2020, are the same as discussed in the pension footnote.

*Discount Rate*

The discount rate used to measure the total OPEB liability for 2021 and 2020 was 2.28% and 3.63%, respectively. These rates were based on a blend of the Bond Buyer Index rate (2.21% at June 30, 2020 and 3.51% as of June 30, 2019) as of the measurement dates and the expected rates of return. The OPEB plan's fiduciary net position was not projected to be available to make all projected future benefit payments for current plan members. The projected "depletion date" when projected benefits are not covered by projected assets is 2028 and 2029 for the fiscal years 2021 and 2020, respectively. Therefore, the long-term expected rate of return on OPEB plan investments is 7.15% and 7.25%, respectively per annum was not applied to all periods of projected benefit payments to determine the total OPEB liability.

Note 14 - **Operating Leases**

During fiscal year 2011, the University entered into a lease agreement for an apartment building to be used for student housing, expiring in July 2022. The University also leases office equipment under non-cancelable operating leases with various expiration dates through 2026. Total rent expense under these lease agreements was approximately \$1,988,000 and \$2,063,000 for the years ended June 30, 2021 and 2020, respectively.

	<u><b>\$ 118,609,458</b></u>	<u>\$ 139,872,366</u>

Note 17 - **Other Fringe Benefits**

The University participates in the Commonwealth's Fringe Benefit programs, including active employee and postemployment health insurance, unemployment, pension and workers' compensation benefits. Health insurance for active employees and retirees is paid through a fringe benefit rate charged to the University by the Commonwealth.

*Group Insurance Commission*

The Commonwealth's Group Insurance Commission ("GIC") was established by the Legislature in 1955 to provide and administer health insurance and other benefits to the Commonwealth's employees and retirees, and their dependents and survivors.

GIC also covers housing and redevelopment authorities' personnel, certain authorities and other offline agencies, retired municipal teachers from certain cities and towns, and a small number of municipalities as an agent multiple-employer program, accounted for as an agency fund activity of the Commonwealth, not the University.

Note 17 - **Other Fringe Benefits- Continued**

*Group Insurance Commission - continued*

The GIC is a quasi-independent state agency governed by an eleven-member body (the “Commission”) appointed by the Governor. The GIC is located administratively within the Executive Office of Administration and Finance, and it is responsible for providing health insurance and other benefits to the Commonwealth’s employees and retirees and their survivors and dependents. During the fiscal year ended June 30, 2021, the GIC provided health insurance for its members through indemnity, PPO, and HMO plans. The GIC also administers carve-outs for pharmacy, mental health, and substance abuse benefits for certain health plans. In addition to health insurance, the GIC sponsors life insurance, long-term disability insurance (for active employees only), dental and vision coverage (for employees not covered by collective bargaining), retiree discount vision and dental plans, and a pretax health care spending account and dependent care assistance program (for active employees only).

*Other Retirement Plans*

The employees of the University can elect to participate in two defined contribution plans offered and administered by the Massachusetts Department of Higher Education – an IRC 403(b) Tax-Deferred Annuity Plan and an IRC 457 Deferred Compensation SMART Plan. Employees can contribute by payroll deduction a portion of before-tax salary into these plans up to certain limits. The University has no obligation to contribute to these plans and no obligation for any future payout.

Note 18 - **Commitments and Contingencies**

The University is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and natural disasters for which the Commonwealth is self-insured.

Various lawsuits are pending or threatened against the University, which arise in the ordinary course of operations. In the opinion of management, no litigation is now pending or threatened that would materially affect the University's financial position.

The University receives significant financial assistance from federal and state agencies in the form of grants. Expenditures of funds under these programs require compliance with the grant agreements and are subject to audit. Any disallowed expenditure resulting from such audits become a liability of the University. In the opinion of management, such adjustments, if any, are not expected to materially affect the financial condition of the University.

**Notes to the Financial Statements - Continued**

**June 30, 2021 and 2020**

Note 18 - **Commitments and Contingencies - Continued**

The University participates in the Massachusetts College Savings Prepaid Tuition Program (the “Program”). This Program allows individuals to pay in advance for the future tuition, at the cost of tuition at the time of election to participate, increased by changes in the Consumer Price Index plus 2%. The University is obligated to accept as payment of tuition the amount determined by this Program without regard to the standard tuition rate in effect at the time of the individual’s enrollment at the University. The effect of the Program cannot be determined as it is contingent on future tuition increases and the Program participants who attend the University.

The University participates in the various programs administered by the Commonwealth for property, general liability, automobile liability, and workers’ compensation. The Commonwealth is self-insured for employees’ workers’ compensation, casualty, theft, tort claims, and other losses. Such losses, including estimates of amounts incurred but not reported, are obligations of the Commonwealth. For workers’ compensation, the Commonwealth assumes the full risk of claims filed under a program managed by the Human Resources Division. For personal injury or property damages, Massachusetts General Laws limit the risk assumed by the Commonwealth to \$100,000 per occurrence, in most circumstances.

Note 19 - **Massachusetts Management Accounting and Reporting System**

Section 15C of Chapter 15A of the Massachusetts General Laws requires Commonwealth Colleges and Universities to report activity of campus-based funds to the Comptroller of the Commonwealth on the Commonwealth’s Statewide Accounting System, Massachusetts Management Accounting and Reporting System, (“MMARS”) on the statutory basis of accounting. The statutory basis of accounting is a modified accrual basis of accounting and differs from the information included in these financial statements. Management believes the amounts reported on MMARS meet the guidelines of the Comptroller’s *Guide for Higher Education Audited Financial Statements*.

The MSCBA was created pursuant to Chapter 703 of the Acts of 1963 by the Commonwealth as a public instrumentality for the general purpose of providing dormitories, dining commons, and other facilities primarily for use by students of the state universities of the Commonwealth. The University is charged a semi-annual revenue assessment that is based on a certified occupancy report, the current rent schedule, and the design capacity for each of the residence halls. This revenue assessment is used by MSCBA to pay principal and interest due on its long-term debt obligations. These obligations may include the costs of periodic renovations and improvements to the residence halls. The Commonwealth guarantees these obligations. The revenue assessments for the residence halls for the years ended June 30, 2021 and 2020 was \$4,387,392 and \$12,701,775, respectively. All facilities and obligations of the MSCBA are included in the financial statements of the MSCBA.

The investment rate of return changed from 7.50% to 7.35%. In conjunction with the investment rate of return changing, the discount rate was also changed to mirror the new investment rate of return.

The mortality rate assumptions were changed as follows:

- Disabled members – the amount reflects the same assumptions as for superannuation retirees, but with an age set forward of one year

Measurement date – June 30, 2017

The mortality rates were changed as follows:

- Pre-retirement – was changed from RP-2000 Employees table projected generationally with Scale BB and a base year of 2009 (gender distinct) to RP-2014 Blue Collar Employees Table projected generationally with Scale MP-2016 and set forward 1 year for females
- Post-retirement – was changed from RP-2000 Healthy Annuitant table projected generationally with Scale BB and a base year of 2009 (gender distinct) to RP-2014 Blue Collar Healthy Annuitant Table projected generationally with Scale MP-2016 and set forward 1 year for females
- Disability – did not change

Measurement date – June 30, 2016

The assumption for salary increases changed from a range of 3.5% to 9.0% depending on group and length of service to a range of 4.0% to 9.0% depending on group and length of service.

Chapter 176 of the Acts of 2011 created a one-time election for eligible members of the Optional Retirement Plan (“ORP”) to transfer to the SERS and purchase service for the period while members of the ORP. As a result, the total pension liability of SERS increased by approximately 400 million as of June 30, 2016.

Measurement date – June 30, 2015

The discount rate to calculate the pension liability decreased from 8.0% to 7.5%

In May 2015, Chapter 19 of the Acts of 2015 created an Early Retirement Incentive (“ERI”) for certain members of SERS who upon election of the ERI retired effective June 30, 2015. As a result, the total pension liability of SERS increased by approximately \$230 million as of June 30, 2015.

The mortality rates were changed as follows:

- Pre-retirement – was changed from RP-2000 Employees table projected 20 years with Scale AA (gender distinct) to RP-2000 Employees table projected generationally with Scale BB and a base year of 2009 (gender distinct)
- Post-retirement – was changed from RP-2000 Healthy Annuitant table projected 15 years with Scale AA (gender distinct) to RP-2000 Healthy Annuitant table projected generationally with Scale BB and a base year of 2009 (gender distinct)
- Disability – was changed from RP-2000 table projected 5 years with Scale AA (gender distinct) set forward three years for males to RP-2000 Healthy Annuitant table projected generationally with Scale BB and a base year of 2015 (gender distinct)

Note 1 - **Change in Plan Assumptions**

**Fiscal year June 30, 2021**

Assumptions:

*Change in per capita claims costs*

Per capita claims costs were updated based on the changes in the underlying claims and benefit provisions.

*Change in medical trend rates*

The medical trend rates were updated based on the SOA-Getzen trend rate model version 20920\_b, the impact of the discontinuation of the ACA Health Insurer Fee and Excise Tax.

*Change in Investment Rate*

The investment rate of return decreased from 7.25% to 7.15%.

*Change in Salary Scale*

The salary scale assumption was updated from a constant 4% assumption to rates that vary by years of service and group classification, consistent with SERS.

*Change in Discount Rate*

The discount rate was decreased to 2.28% (based upon a blend of the Bond Buyer Index rate (2.21%) as of the measurement date as required by GASB Statement 74.

Fiscal year June 30, 2020

**Fiscal year June 30, 2020**

Assumptions:

*Change in Inflation*

The inflation rate decreased from 3.0% to 2.5%.

# **INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Trustees of  
Westfield State University  
Westfield, Massachusetts

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Westfield State University (the "University"), which comprise the statements of net position as of June 30, 2021, the related statements of revenues and expenses, changes in net position, and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the University's basic financial statements and have issued our report thereon dated **DATE**

## **Internal Control Over Financial Reporting**

In planning and performing our audits of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audits and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
